

ELITEPro

Ultra Air purifier

Pre-filter | HEPA filter | Carbon filter | Photo-catalytic filter | UV-C light | Ionizer | Ozone

• Power consumption: 40W
• Input voltage: 110~120V/220-240V/50-60Hz
• Air cleaning efficiency: 99%
• Ozone output: 360mg/hour(2 ozone plates) Ion
• Output: $\geq 5 \times 10^6 \text{ cm}^3$ (or $\geq 2.5 \times 10^6 \text{ cm}^3$)
• Application Area: 500 square feet 20GP/40GP/ 40HQ:800/1600/1800PCS
• UV Spectrum: $500 \mu\text{w}/\text{cm}^2$ (at 10cm-distance)
• Air flow Volume: 106 CFM(3m ³ /min)
• Product size: 270x210x300mm
• Packing size: 345x285x375mm
• N.W./G.W.: 5.3KGS/6.3KGS

LED screen

Remote control

Features

1. 5 speed settings
2. Safety features: Power auto-off protection when back cover removed
3. Double fuses to make sure it work perfectly
4. UV and Ozone can be on/off separately.
5. Large air flow, low noise level.
6. UL CE listed electronic components such as fan, UV light, etc.
7. Easy maintenance and replacement the air filters, back cover can pull out by hand.
8. Pre-filter special for large particulate or bugs.

Application range

Eliminates odors from mold, Breaks down contaminants on surfaces, cigarette/cigar smoke, pet odors, paint/cleaning fumes, dust, pollen, for home, hotel, office building, airplanes, restaurant, school, food plants, gymnasium, warehouse etc.

Applications: For air purifier, to remove bacteria and virus, cigarette/cigar smoke, for daily home using, car cleaning, boat cleaning etc. For water sterilizing, for food clean and restores, extends food life, for kitchen, SPA, small aquarium.

Warning : using the ozone function

1. Please select the model with the marked capacity (mg / hr) to know the ozone capacity. Second, the use of air disinfection: people must not use it indoors, and wait one hour after the ozone machine is turned off, people go in again, and immediately open the window. It is recommended to put it in a high place when using it, and turn on the electric fan, so that the ozone is evenly distributed in the room for disinfection. If used in a car, it is best to open the window a little to avoid inhaling too much ozone.

International Certification

Certification

Our Air Purifier product series: Home Air Purifier, Commercial Ozone Generator, Vehicle Air Cleaner, Water Purifier and accessories. Mainly exported to USA, Canada, Europe, Australia, Southeast Asia, Japan with good reputation.

Our company takes innovation as purpose. We keep improving on our products and service in order to provide a high-quality and affordable goods for customers.

There is no doubt that we should take responsibility for environmental protection, energy saving and pollution prevention.

Reports

ANALYSIS AND TEST RESULT

Type	Active Time	Total Volume	Active Time (min)	Active Time (h)
1. (100%)	1.0000	1.0000	1.0000	1.0000
